INDEX BY AUTHOR
PRIMUS
VOLUME I (1991)

Tom M. Apostol
29 Teaching Mathematics with Computer Animated Videotapes

Gerald M. Armstrong
275 Some Projects for Calculus and Analysis

Donna Beers
368 The Role of Applications in the New Calculus

James W. Burgmeier
159 Computers As a Teaching Tool in Calculus

Robert W. Case
339 The Basic Link in Calculus Reform: Student Discovery

James Castro, Jerrold Gold, Elena Marchisotto, Mark Schilling, and Joel Zeitlin
253 Small Steps to a Student-Centered Classroom

Richard H. Crowell and Reese T. Prosser
149 Computers with Calculus at Dartmouth

John W. Dawson, Jr.
87 Displaying the Conics: Three Alternatives to Computer Graphics

Lucy Dechene
343 The Socratic Method Approach to Word Problems

Tom Farmer
347 Breaking Away from the Lecture Mode in Calculus

Laurene V. Fausett and Cecilia Knolls
407 Effective Use of Teaching Assistants in First Year Calculus

L. Feldman and I. Malyshev
81 Substitution Helps!

William E. Fenton
176 Using Management to Teach Mathematics

Alfinio Flores
205 Calculators in Calculus: That's the Limit
397 A Puzzle of Mathematical Formulas
Richard Alan Gillman
423 A Colloquium Experience for Undergraduate Mathematics Majors
Sheldon P. Gordon
305 Introducing Taylor Polynomial Approximations in Introductory Calculus
Jerrold Gold, James Castro, Elena Marchisotto, Mark Schilling, and Joel Zeitlin
253 Small Steps to a Student-Centered Classroom
Catherine A. Gorini
244 An Integrated Program of Writing and Speaking in the Undergraduate Mathematics Curriculum
Margie Hale
205 Mass and Center of Mass as Initial Value Problems
Barbara A. Jur
75 The Poetry of Mathematics: Writing Problems as Poetry
Herbert E. Kasube
415 History of Mathematics as Taught in a Seminar
Harvey B. Keynes
359 The Calculus Curriculum Reform Movement: Some Views from the Outside
Amy C. King
302 Special Person of the Day
Cecilia Knolls and Laurene V. Fausett
407 Effective Use of Teaching Assistants in First Year Calculus
Lisa Townsley Kulich
352 Calculus Reformation or Affirmation? Concerns from Other Disciplines
Phil Locke
379 Implementation of Calculus Reform: Some Ideas on How to Get Started
John F. Lucas
325 Integration by Subtraction

Richard J. Maher
384 Precalculus and Calculus Students: What Can We Do for Them Right Now?
I. Malyshev and L. Feldman
81 Substitution Helps!
Ernest Manfred and George Rezendes
401 A Placement Procedure Using Regression Analysis at the United States Coast Guard Academy
Elena Marchisotto, James Castro, Jerrold Gold, Mark Schilling, and Joel Zeitlin
253 Small Steps to a Student-Centered Classroom
William Marion
314 Discrete Mathematics: A Mathematics Course Or a Computer Science Course
John H. Mathews
103 Finding Least Squares Lines with Mathematica
Susann M. Mathews
430 Group Problem Solving in the College Mathematics Classroom
Stephen B Maurer
9 Advice for Undergraduates on Special Aspects of Writing Mathematics
Roland Minton
43 The Ethical Consultant
Roger H. Moritz
212 Summing Series
Nadine C. Myers
287 Writing and Speaking to Learn Geometry
Reese T. Prosser and Richard H. Crowell
149 Computers with Calculus at Dartmouth
Steve Quigley
337 PWS-KENT Workshops on Calculus Reform
149 Computers with Calculus at Dartmouth
Clifford A. Reiter and Thomas R. Yuster
225 Computers, Numerical Integration, and the Definition of Area

Barbara E. Reynolds
373 Calculus Reform: Implementation of a New Curriculum

George Rezendes and Ernest Manfred
401 A Placement Procedure Using Regression Analysis at the United States Coast Guard Academy

Thomas W. Rishel
113 The Geometric Metaphor: Writing and Mathematics in the Classroom

Hardeo Sahai
198 Some Comments on the Teaching of Statistics In the Department of Mathematics

Mark Schilling, James Castro, Jerrold Gold, Elena Marchisotto, and Joel Zeitlin
253 Small Steps to a Student-Centered Classroom

Abe Shenitzer
137 What Can One Learn from a Small Book of "Stories About Maxima and Minima" Intended for High School and College Students and for Their Teachers

Arlo Schurle
129 Does Writing Help Students Learn About Differential Equations?

Kathleen M. Shannon
65 An Argument for Increasing the Scope of the Mathematics Curriculum

Harold T. Shapiro
5 Risk, Progress, and Achievement

Herb Silverman
333 A Conversion to L'Hôpital's Rule

Anita E. Solow
183 Learning by Discovery and Weekly Problems: Two Methods of Calculus Reform

Carol Spiegel
220 A Blockbuster Scenario for Negating Quantified Statements

Todd Timmons
95 A Numerical and Graphical Approach to Taylor Polynomials Using an Electronic Spreadsheet

Brian J. Winkel
1 Why PRIMUS?

Thomas R. Yuster and Clifford A. Reiter

225 Computers, Numerical Integration, and the Definition of Area

Joel Zeitlin, James Castro, Jerrold Gold, Elena Marchisotto, and Mark Schilling

253 Small Steps to a Student-Centered Classroom

Lee L. Zia

49 PHASER-Based Courseware for Ordinary Differential Equations

Miscellaneous

222 Letters to the Editors

443 Index by Author - Volume I (1991)
